Microsoft

ENHANCED LEARNING
& teaching
experience

#TeachYourChildren – MASP* offers ICT curriculum - aligned to National ICT Policy. Microsoft's ICT curriculum nurtures students' inquisitiveness and imagination, enabling them to access a wide variety of information and resources while helping them solve problems.

To enable effective use of ICT tools and technology in classroom, Microsoft closely engages with the educators and students through exclusive programs and MASP provides institutes the access to these programs & initiatives.

MICROSOFT STUDENT ASSOCIATE ENGAGEMENT

The Microsoft Student Associate Engagement provides students the access to a series of 4 webinars scheduled in a month. These webinars help students gain insights into critical skill areas and understand how technology helps them gain those skills.

Themes for student webinars include:

- Productivity tools; Office 365, Skype, Yammer
- Windows Apps
- Azure Concepts
- Big Data and Internet Of Things
- Entrepreneurship Case Studies
- Gaming (Optional)

*Terms & conditions apply.

MICROSOFT EMPOWERED TEACHER SESSIONS

Educators play a significant role in nurturing future ready skills of students. To help educators leverage the benefits of technology and enhance the teaching experience for their students, MASP provides access to Microsoft Empowered Teacher Sessions. These training sessions are delivered as bi-monthly webinars.

Themes for teacher sessions include:

- Collaboration tool in classroom; Office Mix, Skype, Sway, OneNote and SharePoint
- Content Creation
- Windows Apps and coding
- New technology concepts: Cloud, Azure and Internet of Things
- Tools for 21st Century Learning

Microsoft

MICROSOFT IMAGINE ACADEMY
Prepare now. Get ahead.

By virtue of joining #TeachYourChildren – MASP, the institute gets access to Microsoft Imagine Academy (MSIA) programme which gives educators the tools to empower and inspire students, and supports the professional development of the faculty.

With MSIA programme, you get access to a full curriculum for teaching technology courses and learning tools that help students achieve success. Additionally, it provides access to reference books and cutting edge technical resources.

PRODUCTIVITY
Help students learn to be productive using Microsoft Office and other software tools for a wide range of jobs and other life pursuits

COMPUTER SCIENCE
Prepare students for college and career roles in software and app development

IT INFRASTRUCTURE
Provide the core technical skills required to build a sustainable technology career managing infrastructure for cloud, clients, devices, databases, and Office 365

To get details about MSIA programme,
visit **www.microsoft.com/en-in/education/imagine-academy/default.aspx**

MICROSOFT DREAMSPARK
Access a library of software you need.

#TeachYourChildren – MASP offers institutes the benefit of free DreamSpark Standard. DreamSpark is a Microsoft Program that supports technical education by providing access to Microsoft software for learning, teaching and research purposes.

FOR INSTITUTES

Provides a cost-effective way to leverage Microsoft developer tools, platforms and servers in labs and classrooms, and on students' computers for learning and research purposes. It reduces lab costs and teaching budgets

FOR STUDENTS

Gives students Microsoft professional-level developer and designer tools at no cost so that students can chase their dreams and create the next big breakthrough in technology - or just get a head start in their career

FOR EDUCATORS

Helps educators teach the latest technologies and experiment in research. It gives educators the resources to ensure their classrooms always have the latest technologies to challenge, motivate, and keep students engaged in new ways
